Make INTERNATIONAL INDUSTRIAL POWER Your Partner in COST CUTTING

The "BERMUDA CLIPPER"

Witness the efficiency of the "Bermuda Clipper" in the "Bermuda Clipper" when it is used for the purpose of transporting mail and passengers. The "Bermuda Clipper" is a 1000-hp. International Harvester airplane, built in Canada, and is one of the most modern and efficient airplanes in the world. It is built by International Harvester, Ltd., London, England.

INTERNATIONAL HARVESTER builds a complete range of power and transportation equipment. Gravelers, tractors, wheel tractors, power units, and motor trucks... all are available under the International Harvester name, and all have the same International Harvester quality built into them from end to end.

Pick your equipment from this one brand line and make sure of outstanding performance on every power and hauling job. And there is service, too, to think about. International dealers and Company-owned branches know all about the service needs of heavy-duty equipment, and maintain service departments and parts stocks that meet every requirement. Say International and have this unusual service cooperation on your side when heavy work schedules tax equipment to the limit.

Visit the nearest International dealer or branch and inspect the equipment your job demands. Or we'll send you complete information on request.

Party Cancer

THE PRIME MINISTER has promised to bring in the election law to curb campaign expenses, and reform is connected with party reform of money for election purposes.

Public satisfaction with this movement may be tempered with moderate over time.

It is the Prime Minister indignantly declared, awareness of party practices will not lead to efforts to banish Parliament and abolish the House of Commons. Why is it that he himself considers reform necessary?

Why did Mr. Bennett fail, when given the opportunity, to make special changes? He is accused in Montreal as saying, "I know of laws being made in connection with Canadian National Revenue contracts." Why did he not tell what he knew?

Mr. O'Brien responded supplies an answer in the case of Mr. Bennett. He says that he proposes will not be made with consultation into electoral corruption, or with the removal of political corruption, until the two major parties get together on the matter and decide to do it for their common benefit.

For both parties through their members, have been guilty of corruption and lying.

The idea has got to be rejected, but better political conditions in the party system in further action.

Moreover, it seems to us that it is time, the whole business of party politics in Canada.

Throughout the country there are thousands of people who are not acquainted with C. H. Clark's recent statement that "We are now largely prepared by a political party for a political party."

Jeffrey Ross in his article said:

It is not to be denied that solutions to most of our major problems would be much easier had successive governments dealt with them on the basis of national welfare rather than on the basis of party expediency.

In the present climate, as in others, there are risks to be taken by those with high hopes of doing things which common sense rules for and who have become weary of the struggle on empty promises by party leaders.

In the future of the old parties to govern effectively in the national world of money and the law of party politics, it is the reason for the growth of Parliament and other measures in Canada.

It explains why it is that it is not a political

shorts and white ones are able to end the support or shirkage of so many people who were once content with old systems of parliamentary government.

It explains the growing lack of public confidence in the party system.

The political leaders are not responsible for a shadow but they are the problem. Still, there has been in our society progress for it.

Reformation of public institutions is in fact a matter for those who were elected to govern for the nation and not for party representation.

And that responsibility must be undertaken without delay.

If our democratic system is to demonstrate its superiority to the systems of Russia, China and Mexico, the cancer of party expediency must be cut out of government.

Otherwise, the party machine will develop into a Frankenstein that ultimately will wreck the free party system.

Let us admit that government as now done is not easy, and men that democracy may present more difficulties than democracy.

But let the party machine realize that the unreformed public machine is democratic institutions cover a grave risk of these institutions being misused and superseded by systems of one sort or another.

Nova Scotia Prudence

GOOD NEWS comes from Nova Scotia. Mr. Newman's financial statement is the best in years. In 1977 the current account in general surplus by \$11,000. Its total balance is more than \$40,000.

The Canadian Board of Commerce has congratulated the Nova Scotia Council of Agriculture as one of the best financial statements in the province.

Lebanese's financial loss and the tax rate by another eleven cents. But it is not this that is the best.

The town of Toronto has signed up its small deficit and shows a surplus.

Government has collected ninety per cent of its taxes and it is a sound business position.

Amidst his financial loss and his efforts and so improved as financial position that it has been found our country the best price in many years.

The Ministry of Nova Scotia's transportation, the financial results, profits, sales, and sales, who following the tradition of their ancestors in Nova Scotia, believe in living within their means.

Charles McCarthy Menaced?

FEARFUL in the Senate as the possibility of reducing the cost of elections and "purging" the members around the ballot box. Robert McEwen declared that "With the rules in place every time I am concerned that in the course of a few hundred dollars a candidate could reach out of the election through the Senate."

Householder Senator Maclean, exposed whether Senator MacEwen did not think that a rule change would be extremely expensive.

Senator MacEwen replied: "There might be expense, but with such broadening under a Government, it might be possible during the thirty days preceding an election to afford candidates an opportunity to broadcast their campaign without meeting their usual liability."

Should this electoral vote be shared by many members of the Commons, it will be necessary for the Government of the Commons to make the Corporation to make the change of rules to make the parties and study the regulations of the Senate. Reformation, Corporation, in the matter of political campaign speeches.

Caught, important, announcement of an election might easily precipitate the CBC into the choice of electoral change.

It would be terrible indeed were the Radio Corporation of America placed in a position in which it had to present the democracy of Mr. Charles McCarthy by Canadian political conditions. Come to think of it, though, Mr. McCarthy would be safe. He performs as Senator.

Fashion Note

YOU KNOW you're not what is going to affect fashion is at

Years ago, Brian Castle, before stage design, during an eleven year campaign to have her hair cut short. That was the beginning of the "hair" fashion. It got a change in the fashion industry.

Now the Canadian silver hair industry is suffering from Queen Elizabeth's recently announcing or long hair, and because the Queen's hair has recently been found to be long.

Fashion designers feel the sales of England are the same. And the fashion for Canada is not the same as the fashion for England (but they don't see it).

WEEKS before the new Hudson 112 was announced, Hudson decided to put a test to most owners.

We didn't go to our friends. We didn't go to Hudson owners, or newspaper men, or engineers. Instead, we went to the most exciting people in the world... owners of the "other three" leading lowest priced cars whose names were mentioned as by no means popular models.

We went over to them two days... the latest models of the car they already owned, and a new Hudson 112.

A simple snapshot can easily be the most prized work of art in your home. It seems incredible that untrained fingers can capture so much sweetness, so precious a fragment of life—until you try. If you have a baby boy or girl, don't wait . . . the snapshots you'll want Tomorrow, you must take Today.

The great snapshots are made on KODAK FILM

• Whether you're expert or inexperienced—whether your picture problem is difficult or simple—for surer results use Kodak Verichrome Film. Double-coated by a special process—it takes care of reasonable exposure errors—increases your ability to get clear, satisfying pictures. Nothing else is "just as good." And certainly there is nothing better. Play safe. Use it always.

In Canada KODAK is the registered trade mark and sole property of Canadian Kodak Co., Limited, Toronto, Ontario.

Accept nothing but the film with the trade mark KODAK on the box.
